SUBJECT: Comments on Drafts of Telecommunications in British, Italian, and French Somaliland

25X1X7 1. The drafts on telecommunications facilities and services in British, Italian, and French Somaliland, forwarded from [REDACTED], have been received and reviewed by S/COM. These drafts are well prepared and appear to be extensive in coverage. We have no substantive comments to make as these areas are not prime research targets for this branch. The information is of value to S/COM, however, and we will retain these drafts until the finished reports are published.
